Brief History

It became evident to the team at Briese Lawyers that many of our over 55's were not aware of the varied support, services & opportunities that were available to them.

From this in 2018 we began the FREE community event "MAINTAINING CHOICE IN YOUR SENIOR YEARS" seminar & mini expo, which has been held in various formats (with some covid interruptions) ever since. We are delighted to be bringing this event to our community again in 2025.

For many people the thought of transitioning into retirement and moving into the next phase of their life is emotional and stressful. A great way to overcome that and embrace the journey ahead is to explore the many choices available to you.

Briese Lawyers love to empower people in this area through our annual seminar and expo "Maintaining Choice in Your Senior Years".

The purpose of this event is to provide information covering everything from, transitioning to retirement, fulfilling your bucket list, leaving a legacy, writing your memoirs, options for aged care, independent living, home support programs, funding strategies when planning for Aged Care, down sizing/granny flats & family arrangements, elder abuse, scams, support & community groups, decluttering, estate planning, life, health, fun & family!

And so much more.

In addition to our seminar, there will be many service providers & community groups with information stalls, freebies, lucky door prizes & a delicious FREE morning tea!
